Supplier Scorecard, 2025

Procurement scores every active supplier once a year. A supplier below 90 percent on-time delivery is put on a performance plan; two years in a row ends the contract.

Defects are counted per delivered order. The scorecard committee meets in Chicago each January.

2025 scores:

supplier	region	orders	on_time_pct	defects
Northwind Components	Europe	159	79.2	2
Contoso Supply	Europe	700	91.8	12
